

Easi-Shipper

The Challenge of Shipping Multiple Cars in a Container is Solved with the Easi-Shipper!

- Simple pulley system
- Requires only two men to assemble
- Eliminates need for use of open containers
- No more loading/unloading at quayside
- No broken seal from point of load to point of delivery
- Security – cars cannot be removed from the system until hoists are re-attached
- Adaptable to be utilized in any standard or high cube container
